

# Living Faith for the Earth

## Your church & renewable energy

A seminar to hear about renewable energy options and your church building. Find out how your church can generate electricity, cut energy bills and, through the feed-in-tariffs, make a good return on its investment!

Including presentations and information from experts, plus an opportunity to see solar panels on a church roof in action.

**9.30am – 12.30pm**  
**5th March 2011**

All Saints Church, Wing, Buckinghamshire
